

NUR-3020 Nursing Professional Concept (Theory 1, Clinical 2)

Provides the concepts and skills of health assessment across the life span, including health history and interviewing. Students perform complete system assessments of well children, adults, and elderly patients in community settings.

Focuses on the acquisition of therapeutic nursing interventions that support, promote, restore, and optimize health in a variety of health care settings. Nursing interventions are mastered in the laboratory setting and provide a foundation for nursing practice.

Prerequisite: NUR 2015
